

Jubb

Engineering Feats. Human Faces

Role: Graduate Structural Engineer

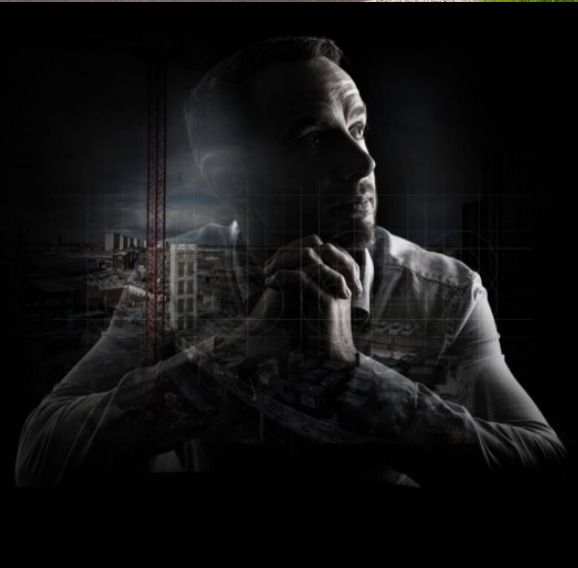

Location: Winchester

Jubb are a successful multi-disciplinary consultancy providing planning and engineering design services to a wide range of clients across the UK. Working across a wide range of sectors including Commercial, Residential, Health, Education and Defence, we pride ourselves on delivering high quality engineering solutions utilising the latest design technologies to ensure that we consistently meet our client's expectations.

With a successful track record spanning over 50 years, the business has a clear vision to continue to develop and grow through the recruitment and retention of high calibre, dynamic and motivated employees who are passionate about their career development, thrive on responsibility and committed to delivering solutions fit for today's modern construction environment.

Due to our expanding workload and increasing pipeline of projects, we are looking for a talented Graduate Structural Engineer to join our Winchester team, ideally with 2 years' experience but less or more will be considered.

This role represents an excellent opportunity for someone with talent and drive to succeed and work their way up the ladder within the business.
