

Jubb

Engineering Feats. Human Faces

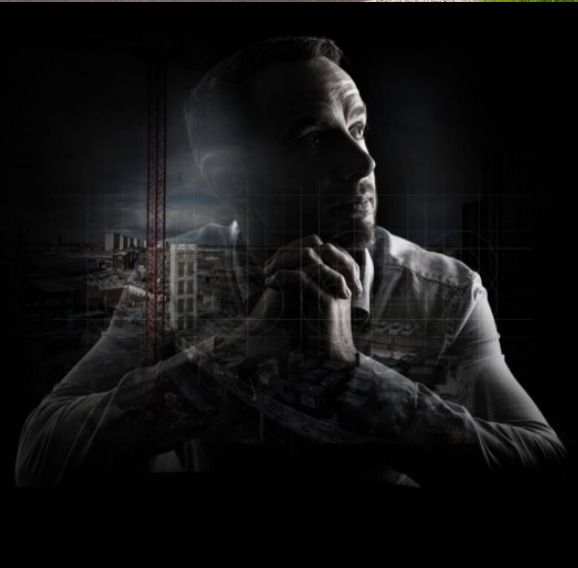

Role: Principal/Associate Structural Engineer

Location: Bristol

Jubb are a successful multidisciplinary consultancy providing planning and engineering design services to a wide range of clients across the UK. Working across a range of sectors including Commercial, Residential, Health, Education and Defence, we pride ourselves on delivering high quality engineering solutions utilising the latest design technologies to ensure that we consistently meet our client's expectations.

With a successful track record spanning over 50 years, the business has a clear vision to continue to develop and grow through the recruitment and retention of high calibre, dynamic and motivated employees who are passionate about their career development, thrive on responsibility and committed to delivering solutions fit for today's modern construction environment.

We are recruiting for a talented engineer to join our Structural Engineering team in Bristol. The candidate will ideally have a minimum of 10 years' experience. This role represents an excellent opportunity for individuals with talent and drive to be part of our existing team, and develop in a creative, supportive, and enjoyable work environment.
