

Jubb are a successful award-winning multi-disciplinary consultancy providing planning and engineering design services to a wide range of clients across the UK. Working across a variety of sectors including Commercial, Residential, Health, Education and Defence, we pride ourselves on delivering high quality engineering solutions utilising the latest design technologies to ensure that we consistently meet our client's expectations.

With a successful track record spanning over 60 years, the business has a clear vision to continue to develop and grow through the recruitment and retention of high calibre, dynamic and motivated employees who are passionate about their career development, thrive on responsibility and committed to delivering solutions fit for today's modern construction environment.

In support of continuing growth, we have a position for an experienced Principal Transport Planner/ Associate to join our growing Winchester Team.

This role represents an excellent opportunity for someone with talent and drive to be part of the existing team to grow and lead by example and create a successful and enjoyable work environment.

Role: Principal Transport Planner/Associate
Location: Winchester

Depending on your experience we will provide training and development opportunities to support you to fulfil all the role requirements within an agreed timeframe.

Skills required for the role:

- Personal responsibility for your professional development.
- Attention to detail producing high quality designs, reports, and drawings.
- An ability to build and maintain effective internal and external working relationships.
- Excellent written and verbal communication skills.
- IT and software skills, proficient with TRANSYT, LINSIG, ARCADY, PICADY, AUTOCAD; etc.
- Project management skills.
- Developing client relationships and attracting external work opportunities.

Summary of key responsibilities:

- To establish client expectations and agree project deliverables and timescales.
- To ensure that all outputs produced are of good quality, comply with current standards, applicable legislation and client expectations; and are delivered in accordance with the agreed timescales.
- Ensure that the Company complies with statutory obligations, including CDM and Health and Safety.
- Up to date knowledge of the Planning Regulatory framework, and knowledge of planning and transport policy as applied to development.
- Work with the transport planning team to regularly review the format, quality, presentation and production of reports and strive for continuous improvement in this area.
- Ensure a working knowledge of the relevant highway standards, including the Design Manual for Roads and Bridges (DMRB) and the Manual for Streets.
- To commercially lead selected projects and to employ appropriate control measures to ensure that fees are managed and invoiced accurately and to capture change to maximise our commercial position and protect the business against overspend.
- To assist in the efficient cost and resource control of projects or aspects of projects within the responsibility of the transport planning team and wider business.
- Establish and develop a transportation presence in the Winchester office.

What's on offer for you

- Competitive salary.
- Discretionary bonus.
- 27 days annual leave plus bank holidays.
- Flexible working hours.
- Enhanced family friendly policies.
- Hybrid Working Policy.
- Holiday Purchase Scheme.
- Employer provided life assurance and income protection schemes.
- Access to Company Pension with a generous employer contribution.
- Support towards training available through our Learning Pathways Programme.
- A friendly, modern office environment.

Applicants should provide a CV with covering letter to our People and Development Manager, Kirstie Williams, by email to: k.williams@jubb.uk.com
